

Satelite radio is a service I CHOOSE to pay for. I believe it offers services for the common good of its subscribers. These services should not be influenced by groups such as the National Assn. of Broadcasters. While they protect thier members, those of us who wish to pay our own money for alternatives should not have to bow-down to their wishes. Please continue to allow satelite radio to grow and serve those of us who wish to subscribe to their services. Thank You.
